Objective

I am seeking a challenging position in an innovative company where I can apply my knowledge, learn from experienced professionals, and contribute to the development of efficient applications.

Education

- Full Stack Web Development - Trybe, completion in September 2023.

The program includes over 3,000 hours of classes covering software development introduction, front-end, back-end, computer science, software engineering, agile methodologies, and soft skills.

- Game Design - Unifacisa (Currently Enrolled), Expected Completion in 2025.

The course aims to prepare professionals to design, develop, and deploy digital games for computers, consoles, mobile devices, and the internet, creating applications in visual and interactive languages.

Other Activities

- Udemy Course: The Complete 2023 Web Development Bootcamp - 2022
- Udemy Course: React + Redux Fundamentals
- Udemy Course: Node.js From Zero to Mastery with Projects - 2023
- Udemy Course: Complete C# Unity Game Developer 2D
- Udemy Course: Complete C# Object-Oriented Programming (OOP) + Projects

Key Technologies and Stacks:

- POO
- TypeScript
- Node.js
- Sequelize
- API Rest
- React
- C#
- Unity

Group Experiences

- The Trybe web development course includes various projects in its curriculum, including group projects that utilize the soft skills learned throughout the program and agile methodologies such as Kanban, Scrum, Trello, among others.
